In this case, the user is a paid / premium user. This is what they will see when they land on a users profile who they are not connected with.

The testimonial box will switch every 10 seconds or so, the user can manually click between the testimonials by tapping / clicking the small circles at the bottom of the testimonials box.

For the badges, the light grey badges show achievements the user has not achieved as of yet where as the darker grey show the user has achieved this badge.

If the profile user has more badges, these will go off screen which with a simple left swipe will reveal other badges in a carousel.
